US Airways flight down in New York's Hudson River

CNN Top Stories - Thu, 15 Jan 2009 16:00:40 EST - 42 minutes ago

Emergency officials are responding to a downed plane in the Hudson River in New York City. The FAA confirmed US Airways Flight 1549, an Airbus A320 headed from New York's LaGuardia Airport to Charlotte, North Carolina, was down in the river following a failed takeoff. The U.S. Coast Guard said units were also responding, and a ferry on site was dropping life jackets into the water.
